Formation - Basics in Fluid Flow - E-Learning

PC1E-EN-E | E-Learning | 2 heures

This e-learning module provides basic information on fluid flow basics These modules are integrated into some of our Blended Learning courses but can also be followed independently For any information please contact us at the following address: contact@ifptraining.com

Niveau

Perfectionnement

Public

All professionals, interested in pump design, operation, maintenance, troubleshooting

Objectifs

Attendees will be able to implement the following skills:

- list the main principles to keep in mind regarding fluid flow

Évaluation des acquis

- Trainees are assessed throughout the training through practical application phases and interactions with the trainer
- A final on-the-spot evaluation may also be carried out at the end of the course and/or at the end of each module using tests designed to verify the learners' understanding and assimilation of the knowledge linked to the training objectives

Prérequis

No prerequisites are necessary to follow this course

Responsable

IFP Training instructors, with expertise in the field and trained in modern teaching methods adapted to the specific needs of learners from the professional world

Programme

FLUID FLOW FOR PUMPS

Energy units, friction losses calculation, system curve assessment, operating point control with system curve control.
